IMPORTANT NOTICE & PRECAUTIONS

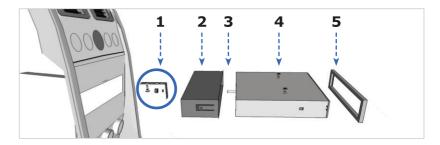

Thank you for using our company multi-media player! To operate the unit correctly, please read the operation manual carefully before using. Keep this operation manual for further reference.

The unit is designed only for DC 12V negative ground operation system. Make sure your vehicle is connected to DC 12V negative ground operation system. Be sure to connect the speaker(-) leads to the speaker(-) terminal. Never connect the left and right channel speaker wires together or to the vehicle body.

The normal temperature for operation is between 0 and +30 degree Celsius. Do not work in extreme high or low temperature and lock vents or radiator panels of the unit, blocking them will cause heat to build up inside the unit and may cause damage or fire.

This unit can play the following media files: RMVB / MPEG 4 / MP3 / WMA / JPEG.

INSTALLATION

- fixture accessories (if included): 1
 x fixation metal sheet, 1 x bolt, 1 x
 nut, 1 x washer
- 2. installation frame
- 3. fixation bolt (if included)

- 4. unit
- 5. bezel (if included)
- * Installation frame is already firmly fixed to the unit's housing by delivery.

MAIN UNIT OPERATION

Symbol / Function Operations & Controls

RES / RST Press with a pointed object (such as a ball point) to reset the unit to its initial

setting by the factory (default stage).

When the unit is turned off, press to turn on the unit. ()/POWER

When the unit is turned on, press & hold shortly to turn off the unit.

M/N / MENU Press to shift screen between MAIN MENU & current operation mode.

4+/**4**-/ press repeatedly to adjust sound output level.

VOL+ / VOL-

MUTF / W Press to turn on or off of sound mute control.

IR Remote control sensor for signal reception from remote handset.

AUX Insert an external device to this jack in order to have sound output of that

external device through the unit.

USB Insert USB device to this slot for digital files playback. MICRO SD / SD / Insert micro SD card to this port for digital files playback.

MINI SD /

MIC For voice reception under Bluetooth operation.

TFT SCREEN It shows the status of operation on the unit. This screen is also a touch

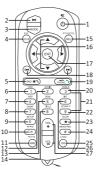

display - soft touch the screen for different operations of unit (refer to other

parts of this manual for operation details).

Note

The above mentioned symbols / functions / operations & controls show the operations for various version of the unit and may not be equipped or available for control in this unit. Printings and symbols on the above may be varied from the exact main unit. Referred to the main unit for exact functions and features that applied. User is highly recommended to use the touch screen control as well as the remote control handset to operate. Most of the operations of this unit cannot be controlled by the main unit.

<u>REMOTE HANDSET – GENERAL OPERATION</u>

BATTERY REPLACEMENT

Refer to the back of remote handset for details on how to replace the battery.

Remove this tab before using the remote handset

27. VOL + / VOL - Press repeatedly or press & hold to adjust sound output level.

ON SCREEN - MAIN MENU OPERATION

During unit operation and when this icon appeared on screen, touch to shift screen to **MAIN MENU** for selection of various operation or setup modes.

Touch the icon on the desired mode on screen and the unit will then enter into the mode that selected for operation. Hold & slide on screen to shift to other MAIN MENU that shows the hidden input or operation icons.

- 1. Touch to shift screen to CALENDAR MENU for calendar & clock setup.
- 2. Touch to start radio operation (when the radio antenna connected).
- 3. Touch to start mobile phone mirror linking operation (when the mobile phone connected).
- 4. Touch to start USB input operation (when an USB device inserted).
- 5. Touch to shift back to previous operation mode.
- Touch to start SD card input operation (when a micro SD card inserted).
- 7. Touch to start Bluetooth operation (when the mobile phone paired with the unit)
- 8. Touch to start auxiliary input operation (when an auxiliary device inserted).
- Touch repeatedly to select brightness of screen or turn off the screen. Turn off of screen is available under headlamp detection at OFF mode. When the screen is off, touch any portion of the screen to turn it on again. Following preset brightness modes can be selected.
- 10. Touch to start viewing front camera (when connected to front camera and pink/black wire).
- 11. Touch repeatedly to select the desired background (wallpaper) of the unit.
- 12. Touch to activate SYSTEM SETUP MENU on screen to have various setup of the unit.
- 13. Touch to select to desired preset equalization mode.
- Touch to Make steering wheel control settings.

ON SCREEN - SETUP OPERATIOPN

At MAIN MENU, touch to shift screen to SETTING MENU for various system setup of the unit.

Hold & slide up/down on screen to show the hidden SETTING MENU for various setup of the unit.

- Touch to shift screen to MAIN MENU.
- 2. Touch to shift to previous menu or operation mode.
- Touch to roll the page up and down.
- Touch to shift to SYSTEM SETUP MENU for various system setting (Refer to SYSTEM SETUP).
- 5. Touch to activate LANGUAGE INTERFACE to select the desired system language on screen.
- 6. Touch to shift to AUDIO SETUP MENU for various audio setting (Refer to AUDIO SETUP).
- Touch to shift to VISUAL SETUP MENU for various visual setting (brightness, contrast, hue, saturation.sharpness)
- 8. Touch to shift to **CALENDAR SETUP MENU** for calendar & clock setting (Refer to CALENDAR & CLOCK SETUP).
- Touch to shift to BLUETOOTH SETUP MENU for various Bluetooth setting (Refer to BLUETOOTH SETUP).
- 10. Touch to shift to **PHONE LINK SETUP MENU** for relevant settings.
- 11. Touch to shift to access other relevant settings
- Touch to shift to SWC SETUP MENU for steering wheel control setting (Refer to STEERING WHEEL CONTROL SETUP).
- 13. Touch to enter reset setup. At this mode, touch the arrow to reset the unit at its ex-factory default stage.
- 14. Touch to shift to VERSION MENU to show details of the unit (Refer to VERSION OF UNIT).
- Touch to activate the volume control bar on screen, hold & slide to adjust the output level on volume.
- 16. Touch repeatedly to select brightness of screen or turn off the screen. When the screen is off, touch any portion of the screen to turn it on again

ON SCREEN - RADIO OPERATION

At MAIN MENU, touch to shift screen to RADIO MENU for radio operation.

RADIO MENU

- 1. Touch to Select station with FM frequency.
- 2. Touch to Select station with AM frequency.
- 3. Touch to Search and save band automatically.
- 4. Touch to tune the radio frequency to upward or downward station for broadcasting. Touch & hold shortly to activate manual tuning mode. At this mode, touch repeatedly to fine tune radio frequency upward or downward.
- 5. Touch to select stereo (STEREO) or mono (MONO) mode at FM radio band. When stereo signal received, ST indicator will be highlighted on screen and this is no indicator for mono signal.
- Touch the desired preset station to start broadcasting. Touch & hold shortly the desired preset station can store the current broadcasting station (frequency) into that station.
- Touch repeatedly to select desired preset equalizat ion mode.
- Touch to activate the PRESET STATIONS MENU on screen.
- 9. Touch repeatedly to select brightness of screen or turn off the screen. When the screen is off, touch any portion of the screen to turn it on again
- 10. Touch to Touch to shift to previous menu or operation mode.
- 11. Touch to activate the volume control bar on screen, hold & slide to adjust the output level on volume.
- 12. Touch to shift screen to MAIN MENU.

ON SCREEN - BLUETOOTH OPERATION

LINK UP WITH MOBILE PHONE

To linkup Bluetooth connection with the mobile phone, take your phone and follow the steps:

- set the mobile phone to Bluetooth state
- start to search new device
- after searched, new device "CAR-BT" searched out, confirm the search
- in case of need, input default code "0000" or "8888" in the mobile phone
- at the same time, Bluetooth icon on screen will be highlighted
- connection succeeded and you can start using Bluetooth function

At MAIN MENU, touch to shift screen to BT MAIN MENU for Bluetooth operation (when a mobile phone has been linked up with the unit).

- 1. Touch to shift to **BT MAIN MENU** for dial out of phone.
- 2. Touch to shift to BT PHONE BOOK MENU to show the phone book of the connected mobile phone.
- 3. Touch to shift to BT RECORD MENU to show the record on incoming calls / dial out numbers / missing calls of the connected mobile phone.
- 4. Touch to shift to BT MUSIC MENU for transmission of music playback from the connected mobile phone.
- 5. Touch to start Bluetooth operation (when a mobile phone linked up with the unit and this icon high-lighted).
- 6. Touch to shift screen to MAIN MENU.
- 7. Touch to shift to previous menu or operation mode.
- 8. Touch to activate the volume control bar on screen, hold & slide to adjust the output level on
- 9. Touch repeatedly to select brightness of screen or turn off the screen. When the screen is off. touch any portion of the screen to turn it on again

DISPLAY MIRRORING-ANDROID MIRROR LINK

(for iPhone 6-7-8 series Mirror Link capable telephones)

The special feature of the device is to display the image of a mobile phone which is connected with USB cable and which has Android operational system on the large touchscreen as a secondary display. All applications on your mobile phone are displayed in portrait or landscape format, depending on the position of the phone and can be controlled from the radio's touch screen without touching the phone. For example, music, movies, and other content, as well as internet radio maps, navigation applications. POI databases, or music from the phone's memory or online.

First, make sure that you have a "QR Code" reader application on your phone. If you have not, install a free version from the Google Play app store.

Then select PHONE LINK from the main menu. Two QR codes and some instructions will appear on the screen. Download the AUTOLINK application to install on your phone:

"AMAZON"QR code link; free download directly from the website to the phone: https://s3-ap-southeast 1. amazonaws. com/productscenter/release/venus/bootes/common /Autolink, apk http://www.autolink.site:8080/jeesite//static/apk/Autolink basic.apk "GOOGLE"QR code link; free download from Google Play store

https://play.google.com/store/apps/details?id=com.link.autolink As the third option you can locate and install the AUTOLINK application with the logo above manually from the Google Play store.

• Download a file directly from the website to your phone and install the application independently of the store, such as the "AMAZON" link.

After installing the application connect the phone with a USB data cable. Instructions on the screen:

CONNECT PHONE:

1.OPEN USB DEBUGGING

2.CONNECT USB LINE

Set the phone correctly:

-SETTINGS menu/ Developer options/ USB debugging/USB CONNECTION:ON (enable!) -Below the previous menu item: USB TROUBLESHOOTING RELEVANT PERMITS: ON (enable!)

- This question usually automatically appears on the phone's opening screen or on its scrollable informational window after connecting the USB cable. Allow it to be permanently, so that it does not need to be repeated after each connection!
- It is recommended to have the screen lock switched off for easier operation or to set an unlocking mode on the phone, which is easier even from the car radio

Android screen mirroring is only available if the AUTOLINK application is installed and the USB troubleshooting mode, as well as sharing data security setting is permitted on the phone. Unlock the screen lock on the phone and connect the phone's cable to hte radio's USB socket. If the connection process does not happen automatically, touch the CONNECT PHONE (connect phone) button on the car radio screen. When a successful connection is made the image of the mobile phone immediately appears on the screen.

In case of connection failure:

compatibility)

- -Verify that AUTOLINK is installed on your phone
- -Try another USB connection cable
- -Restart your phone and check developer, USB connection settings, and data sharing permissions -Verify that your Android phone is suitable for such use (Android 5.0 and newer, with Mirror Link
- If the image does not rotate when the phone is rotated, then check if the image-rotation is permitted in the scrollable menu. You can do this with local controller menu, which appears after tapping the white, unlabeled button on the car radio's left side.
- The picture is transmitted via the USB cable to the car radio while the sound is over the wireless BT connection. Meanwhile the phone battery is charging.
- The USB cable must have a data transfer function in addition to the charging function. In general, the cable supplied with your phone is good
- Due to the significant differences between mobile phones and their operating systems. there may be malfunctions and incompatibilities that are not caused by this device. The application which insures connection is a product of a third therefore its operation. development, and changes are independent of the manufacturer of this product.
- The screen mirroring and other functions described in this manual cannot be guaranteed in any case in existence of reasons independent of the manufacturer.

SPECIFICATION

GENERAL

Power Requirement: DC 12 Volts, negative ground Load Impedance: 4 Ohms

Maximum Power Output: 60 watts x 4 (RMS)

Maximum Power Output: 60 watts x 4 (RMS)
Tone Control – Bass (at 100 Hz) +/- 8 dB

Treble (at 10 KHz) +/- 8 dB

FM RADIO SECTION

Maximum Distance: 5 meters

AUDIO SECTION

Maximum Output Level: 2 Vrms (+/-3 dB) Frequency Response: 20 Hz to 20 KHz Signal to Noise Ratio: 85 dB

Channel Separation: 80 dB

Note: Specification and design; functions and features; unit illumination; colour and display segment are subject to change without prior notice. Photos and drawings on gift box or operation manual might be varied from the exact unit. Depends on the input devices, operation might be varied from the operation manual described.

SIMPLE TROUBLE SHOOTING

PROBLEMS, CAUSES & SOLUTIONS

No power

- Check and make sure the connecting wires are connected correctly
- Check whether the fuse is blown. Replace with the proper value fuse if necessary.

No sound

- Check and make sure the speaker wires are connected correctly.

No picture

- Check whether the video wire is connected to the video device.

Unit hang-up

- Reset the unit to its default stage.

No function when pressing the buttons or TFT screen

- Reset the unit to its default stage.

Poor effect or unable to receive radio

- Check whether the radio antenna is inserted or properly connected.
- Antenna may not be the proper length. Make sure the antenna is fully extended.
- Antenna may be poorly grounded. Check and make sure the antenna is properly grounded.

Stereo cannot be received under radio mode

- Tune the radio frequency accurately.
- The broadcasting signal is too weak, set the mode to MONO.

Remote handset does not work

- Replace new battery of the remote handset.
- Point the remote handset directly at the remote sensor of the main unit.
- Clean the surface of the remote sensor.

Bluetooth not operated

- check the devices are linked up correctly.

Note

After the above efforts, if the unit still cannot be worked normally, consult your service dealer.

Never attempt to disassemble the unit by yourself. No service part inside the unit.
